SMARTSERIES® PLUS

Digital Touchscreen Control

SmartSeries Plus is the first digital touchscreen capable of running a **fully-programmable internal schedule** or connecting to a BACnet Building Management System.

Key Features:

Intelligent Controls for Intelligent Buildings

This control comes ready to connect to your Building Management System using BACnet MS/TP protocol.

Reduced Operations & Maintenance Time

Use of the BMS saves facility manager time and reduces personnel costs by eliminating the need to travel to the heater site.

Control at your Fingertips

If a BMS is not available, you can simply use the built in 7-day programmable scheduling feature. With the occupancy settings, you can quickly schedule different temperatures for multiple periods per day.

Lockable Key Pad

Protects the unit from unauthorized access and/or tampering giving you peace of mind the heater is running correctly.

Temperature Override

Control your comfort with a temporary override that enables users to set a temperature above programmed setpoints for up to 4 hours.

¹ Electronic thermostats have amperage minimums and each model has different voltage requirements, please check catalog thermostat specifications.

⁴ Series models require the removal of the internal thermostat from unit. Wire wall thermostat for proper fan operation. See model selection for specific thermostats.

⁵ Low voltage thermostats operate in conjunction with low voltage control systems using relays. Compatible with all standard 24V two wire thermostats.

⁶ The QTS watt units can use either single-pole or double-pole thermostats. The 1104 and 1504 watt units must use a double-pole thermostat. (three conductors from thermostat to unit). Does not apply to low voltage thermostats, which need a transformer.

⁷ CDF and EFF Series models require different thermostats based on internal wiring. Wire wall thermostat for proper fan operation. See model selection for specific thermostats. Can not use digital thermostats with this unit.

⁸ Due to the complexity of wiring variations for remote wall thermostats with these products, we recommend that you contact Technical Services for assistance.
